From Our Garden to Yours

A True Texas summer is upon us ~ is your garden ready? If you've learned to garden the Weston Gardens' way, you'll be enjoying blooms, butterflies and beauty while your neighbors wilt away and worry about their water bill! Believe us when we say you CAN have it all. Want to know how? Come on by and visit with our knowledgeable staff and learn how to create a landscape that can not only survive, but thrive through the heat, and will move into the fall months rewarding your efforts with continual color and interest through the seasons! We have been working with Texas weather, in our nursery and our demonstration gardens, for over twenty years, and are well known in North Texas as the experts on using native and adapted perennials, shrubs and trees to create a beautiful and lasting landscape.

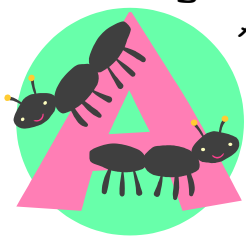

To learn even more, you can also visit the Texas Smartscape website, <http://www.txsmartscape.com> to learn about conserving water, attracting butterflies and other wildlife, and design and care tips for your garden. Weston Gardens was a primary contributor to the Texas Smartscape CD and program, which was made possible through the collaboration, cooperation and effort of many cities, counties, agencies, water providers and other contributors in the North Central and West Texas regions.

Last Days to Redeem Your Weston Bucks!!!

Do you still have your spring Weston Bucks stuck in a drawer, crammed in your purse, or pinned to your calendar?? What are you waiting for?!?!? ***They will expire this Saturday, July 15th ~ those bucks are valuable items!*** Come on by and use them for up to one-half off of your purchase of plants, garden art, books – everything is fair game! Don't need anything right now? Use them to pay for half of a gift certificate, and then you'll have a whole year to make up your mind!!

Have You Bought Your Nematodes yet??

Looking for a simple, organic way to control fire ants, fleas, and grubs? Come by and check out ANTiDote! These microscopic beasts have been cultured to hunt, seek out and destroy fire ants, and will also work great on fleas, flies, and white grubs in your lawns. Each treatment has two packets (with simple application instructions) and will treat up to 8000 sq. ft. topically, or 1/8 to 3/4 acres for fire ant infestation. Depending on application, you will use a watering can, pump up sprayer or hose end sprayer. Available for \$24.98 each, while supplies last!

Mulch Your Way to Lower Water Bills!

Keeping your plant beds well mulched through the heat of the summer will help with multiple issues. It will help regulate the soil temperature to a more even level, which is less stressful for the plants. It will help conserve moisture, so that you won't have to water as often. It will also reduce weed problems. What a deal! We carry our own shredded hardwood mulch, which has minimal "floating" issues during heavy rains, and will gradually decompose and improve your soil. Priced at \$7.98 for a 3 Cu. Ft. bag, and we offer a 15% discount for 10 or more bags (this can be a combination of compost and mulch in one purchase). So stock up now (hint, a great way to use your **Weston Bucks!**).

Did You Miss the Spring Boat Tours??

We had an amazing response this spring to the re-opening of the historic stone ship in our demonstration gardens! Due to space limitations, we've heard from many customers that were unable to make one of the tours. If this happened to you, be sure you are on our current email list! If you're not sure, call us and we'll check! We are in the planning stages for our fall event schedule, which will definitely include more boat tours, and we'll be letting our customers know by email.

Have You Checked Out Our Great Tea Selection??

If you haven't visited our gift shop recently, you'll want to stop by and see our great selection of teas, teapots, strainers and other tea necessities! Whether you're interested in the many health benefits of teas, or just crave a yummy blend to sip in the morning or have iced by the pool, we have a blend you'll love! Black, green, rooibos and herbals, in varieties such as Chocolate Orange, Apricot Green, Black Currant, and so many more. Attractively packaged, these teas make wonderful gifts, too!

This Month, we're featuring Hibiscus Tea. Hibiscus Tea is an herbal tea, or tisane, so it is caffeine free. This is a wonderful blend for iced tea! It brews up a deep ruby red, with a tangy taste. It is loaded with Vitamin C too! It comes in a 4 oz. size (loose tea) for just \$9.98.

Thanks for being a Weston Gardens Customer!
